Overview

I focus my practice in Estate Planning and Administration, Real Estate, Land Use, Guardianships, Administrative Law Matters for Professionals and Civil Matters such as Business Development and Contracts. My background in Mental Health and Emergency Services provides me with a unique perspective that allows me insight to make sure that my clients' needs are met, whether I am working with individuals to craft an estate plan, helping deal with an ill family member or helping an organization with guidance on operations.

Growing up in Willingboro, New Jersey, I was the youngest of six kids from a military family. I am married to my beautiful wife Christine who provides me with unbelievable support. We have 3 wonderful children and 3 grandchildren that are the center of our world.

While in high school, I became certified as an Emergency Medical Technician and volunteered for my local organization. I graduated from John F. Kennedy High School in 1987. I went on to attend Rutgers University where I graduated from the Camden Campus in 1995 with a degree in Psychology. I began working in Mental Health and I have developed an extensive background in all aspects of the mental health field including inpatient, outpatient and intensive case management.

I attended Widener University School of Law and graduated in December of 2004. I wanted to blend my background in mental health and emergency services in a new way that would allow me reach out and understand a unique group of people.

I have spent 40 years working in the Emergency Medical Services field as an EMT. I recently retired from Mount Laurel Township where I was the Chief of Emergency Medical Services. I am a life member of the Willingboro Emergency Squad and am legal counsel for the organization as well as several other local organizations.

I am a Paul Harris Fellow with Rotary International. The motto of Rotary is "Service Above Self". I work to live this every day whether it is with my family, teaching in the community with my wife or working with client's. I strive to offer offering flexible scheduling that includes night, weekends and home or business meetings, understanding that my clients have a life and responsibilities as well.
